Hello Neighbors!

We hope this email finds you well. We are starting a community email to hopefully serve as a resource for community members to stay updated on our operations and be a convenient place where you can reach us.

We want to be good neighbors. With that in mind, each week we hope to forecast the work that's ahead for our team so you know what to expect and are better able to anticipate what you may or may not hear.

Among the services we provide is rapid repair for vessels in route to other locations. You might compare it to AAA for cars on the highway. Therefore, sometimes we don't know what lies ahead, but regardless, we stand ready to help.

One of the ways we want to help is limiting the noise if and when we can. We know that you live in this community and from time to time you may host events or gatherings at your home. Therefore, if you have a special event planned at your home in the coming months, please let us know. We will do everything we can to limit the sound generated from our facility.

Also, we want you to be able to easily contact us. Please save this e-mail and reach out to us (community@stevens-towing.com) anytime! Again, we are here to be a good neighbor.

Here is what we have on deck this upcoming weekend at our shipyard:

- We will be working to complete a few projects with a reduced work force. This will require some steel work, but there will be no water or sand blasting.

We'll close with photos of our amazing team celebrating a job well done with tacos and ice cream for lunch.

With gratitude,
Johnson Stevens and the Stevens Towing Team
