RESTRICTIVE COVENANTS AFFIDAVIT

Please read the below affirmation carefully, sign if you agree, and return to Zoning & Planning Staff for review. Restrictive Covenants are filed with the Register of Deeds Office and copies, should they exist in association with your parcel, may be obtained from their Office.

I have researched the Restrictive Covenants applicable to the parcel identified below and have found that either there are no restrictive covenants applicable to the subject property/properties or that the proposed permit application is not contrary to, does not conflict with, and is not prohibited by any of the Restrictive Covenants, as specified in SC Code Ann. §6-29-1145.

Explanation:

Effective July 1, 2007, South Carolina Code of Laws §6-29-1145 requires local governments to inquire in the permit application, or in written instructions provided to the applicant, if a tract or parcel of land is restricted by a recorded covenant that is contrary to, conflicts with, or prohibits an activity for which a permit is being sought. A copy of this statute is available below for your convenience.

SECTION 6-29-1145. Determining existence of restrictive covenant; effect.

(A) In an application for a permit, the local planning agency must inquire in the application or by written instructions to an applicant whether the tract or parcel of land is restricted by any recorded covenant that is contrary to, conflicts with, or prohibits the permitted activity.

(B) If a local planning agency has actual notice of a restrictive covenant on a tract or parcel of land that is contrary to, conflicts with, or prohibits the permitted activity:

1. in the application for the permit;
2. from materials or information submitted by the person or persons requesting the permit; or
3. from any other source including, but not limited to, other property holders, the local planning agency must not issue the permit unless the local planning agency receives confirmation from the applicant that the restrictive covenant has been released for the tract or parcel of land by action of the appropriate authority or property holders or by court order.

(C) As used in this section:

1. "actual notice" is not constructive notice of documents filed in local offices concerning the property, and does not require the local planning agency to conduct searches in any records offices for filed restrictive covenants;
2. "permit" does not mean an authorization to build or place a structure on a tract or parcel of land; and
3. "restrictive covenant" does not mean a restriction concerning a type of structure that may be built or placed on a tract or parcel of land.

HISTORY: 2007 Act No. 45, Section 3, eff June 4, 2007, applicable to applications for permits filed on and after July 1, 2007; 2007 Act No. 113, Section 2, eff June 27, 2007.

TREE AFFIDAVIT – RESIDENTIAL USE

Please read the below affirmation carefully, sign if you agree, and return to Zoning & Planning Staff for review.

I hereby certify that the proposed activity or development on the parcel identified below will be undertaken without the disturbance, alteration, removal, or destruction of any required Grand Tree (Live Oaks with a DBH of 24" or greater) as defined in **Chapter 9, Tree Protection & Preservation**, of the Town of Meggett Zoning and Land Development Regulations (ZLDR).

I assume full legal responsibility for any actions not in compliance with the tree preservation requirements of the Town. I am aware that violations may result in stop work orders, revocation of zoning and building permits, delays in issuance of certificate of occupancy, fines, and replacement trees as mandated by the Board of Zoning Appeals or Planning Director.

Please read the information given below and initial to confirm you understand the information as it has been provided to you.

Tree Protection During Development & Construction

Protective barricades shall be placed around all required trees in or near development areas on all zoning parcels, prior to the start of development activities. These barricades, constructed of wood or plastic fencing or other approved materials shall be erected in accordance with standards by the Planning Director and placed beneath the canopy drip line or one and one-half feet times the DBH of the tree. Other protective devices or construction techniques may be used as approved by the Planning Director. The barricades shall remain in place until development activities are complete. The area within the protective barricade shall remain free of all building materials, dirt, fill, or other construction debris, vehicles, and development activities.

 (Initial Here)

NOTE: Representatives of the Town are authorized under the conditions of this permit application to make random site inspections to verify that these standards and requirements are being complied with during construction. Failure to implement these requirements may result in enforcement action.

Definition of "Tree Removal"

For the purpose of this Article, the term "tree removal" shall include, but not be limited to, damage inflicted to the root system by machinery; girdling; storage of materials and soil compaction, changing the natural grade above or below the root system or around the trunk; damage inflicted on the tree permitting fungus infection or pest infestation; excessive pruning; excessive thinning; paving with concrete, asphalt or other impervious material within such proximity as to be harmful to the tree; or any act of malicious damage to a tree.
